Wireframe Descriptions

1. Sign up button at bottom of Sign In page takes users to a new page to create an account.
2. Users have the option to upload a profile picture.
3. Once users submit the information for a new account, the website directs users to the Home page for Toss. Here, they have the ability to view Active Tosses (once they have participated in them) and the past Tosses that they were in.
4. On the left side of the Home page, users can pick which category they would like to join for a Toss. Once they pick one, the website takes users to a new page where they are presented with a randomly generated prompt.
5. Users can enter their text response to the prompt here (with regard to a character limit).
6. A resource link *must* be attached at the bottom for the response to be submitted.
7. After their response is submitted, Users enter a new screen for the first Toss phase. On left side, tags descriptions listed for users to rate other responses accordingly.
8. Each response displays the set of tags for users to choose from (required to choose at least two).
9. A comment button is also available.
10. Once the phase ends, users may proceed to a new page where the individuals with the highest scores for each tag are presented.
11. Clicking on a profile name takes the users to a different screen to view the response of that user to the prompt and the statistics for their tags.
12. Users may click "Click to View Profile" to see that user's profile account.
13. Exit returns to rankings page.
14. Should users click button mentioned in 12, users can view another user's entire account. Here, on the left side. statistics are presented for their tag engagement.
15. Statistics for their Moral Standings test are also displayed.
16. Buttons linking to their social media accounts listed.
17. A list of their responses/comments displayed in a thread with the title of the Toss and any tags they received next to it.
18. Users have ability to edit their account information. Pressing this directs them to Account Settings.
19. Page lists text fields for users to make any changes to their account.
20. Save ensures that information is stored.
